

# MOTOMAN ArcSystem

## VMI-500 NM

- Designed for operator ease of use
- Unobstructed view of the robot cell
- Complete safety kit

Designed for arc welding of small to medium sized parts. The single high speed arc welding robot and the two-station VMI-positioner makes it a small and efficient system.

The ArcSystem is built to a global standard that delivers savings in both time and money. It is based on a modular system of standard components that can meet the requirements of the general and automotive industry using a minimum of floor space.

Equipment	
Possible robots	MH6, MA1400, VA1400
Robot stand	H = 600 mm
Positioner	VMI-500 NM, max. payload 500 kg/station
Fume hood	L = 2200 mm
Safety kit	Safety fence, light guard, welding curtains, operator's panel
Welding equipment	<i>Not included. Must be quoted separately according to customer request.</i>
